Telephone 261 R

OUR beautiful Illustrated Catalogue of TREES, SHRUBS and ROSES may be had on application. Now is the time to plan for both Fall and Spring, as many Trees, Shrubs and Roses start so early that they do much better planted in Autumn. September is the time to plant the "Old-Fashioned Flowers," August for Evergreens, and October and November for Bulbs, Shrubs, Trees, etc.

QUALITY WILL BE REMEMBERED AFTER PRICE HAS BEEN FORGOTTEN

How and When to Plant Bulbs

ULB-PLANTING out-of-doors should be as early as the middle of October for best results, and even earlier. In the case of *Lilium candidum*, Iris, Colchicum and Narcissus, September is none too early. Dutch bulbs should be planted evenly, about 6 inches to the bottom of the bulb, in well-prepared soil. Lilies should be 8 to 10 inches below the surface. If planted at uneven depths they will not bloom evenly. After the ground is frozen, cover the bed with leaves or stable litter to the depth of 6 inches, and remove it early in spring. Bulbs may be left in the ground and will bloom just as well the second year. If the bed is used for Geraniums, Salvias or other bedding plants (except those with large roots, like Cannas), the bulbs need not be disturbed by setting the plants between them after the blossoms are gone. The leaves of bulbs will soon die down, leaving the bedding plant alone in sight.

It has been my practice, since I began to import bulbs fourteen years ago, to buy for my customers the very best stock grown, believing that Americans are not only as appreciative of the best, but also as able to pay for select bulbs, as are the people of Europe. The result is that I have built up a magnificent trade amid the fiercest competition among large dealers, many of whom have yielded to the cry for cheap bulbs. To secure the low prices at which I offer these choice, picked bulbs, orders should be placed early, as they are filled in rotation. You need not pay, of course, until delivery of the bulbs. My method of securing the best at less than the price for common stock is worth a trial by all who buy bulbs in any quality.

FORCING BULBS

Tulips in pots make a magnificent display if ten or twelve bulbs of one variety are grown in an 8-inch pot or seed-pan, or seven bulbs in a 6-inch pot. Any good garden soil does very well, but the best consists of three parts of fibrous loam, one part of well-rotted manure and one part sand. Place a piece of broken pot or coal over the hole, fill the pot about two-thirds full of soil, and jar it down somewhat; set the bulbs on this soil about the same distance apart, and cover them to the depth of an inch, pressing the soil around them firmly with the hand. Soak with water and set the pots away in a dark, cool room, where they should not be allowed to get dry (they may need watering once in two or three weeks); or dig a trench in the garden, set the pots in and cover with coal-ashes to the depth of several inches. Before the ground freezes, place over them a good depth of coarse manure or leaves to keep from freezing, so that the pots may be brought into the house as wanted. Do not bring them into a very warm room.

Hyacinths, Crocuses, Narcissi, etc., should be treated in the same way, except that the crowns of the Hyacinths should not be covered. Hyacinths should be planted singly in 5-inch pots, or three or four in 7- or 8-inch pots. Successful bulb culture depends upon getting roots well established in the pot at a low temperature of 40 to 50 degrees before bringing them into a temperature of the living-room to form the tops. New pots should soak in water over night before using.

We guarantee our bulbs equal to any imported, no matter what claims are made or prices asked

TULIPS

DUC VAN THOL TULIPS

These Tulips, being the earliest of all, are used for forcing before the others may be flowered. The flowers are smaller than those of other Tulips.

	10	100		10	100
Scarlet	\$0 20	\$1 50	Red and Yellow. Earliest of all.....	\$0 25	\$1 50
Rose	30	2 50	Red and Yellow Maximus	25	2 00
White Maximus	30	2 50	Crimson	20	1 25

EARLY SINGLE TULIPS

The following are the cream of the large-flowered varieties. Those marked with a (*) may be forced. All may be used out-of-doors. Letters in the left margin indicate relative time of flowering, A being earlier than B. Figures are the height in inches.

	10	100	1,000
B 7 * Artus. Scarlet; much used for bedding.....	\$0 20	\$1 50	\$12 00
B 9 * Belle Alliance. Scarlet; sweet-scented; large flowers.....	30	2 50	23 00
A 8 * Canary Bird. Pure yellow	20	1 75	
B 9 * Chrysolora. Pure yellow; extra fine bedder	15	1 00	8 50
B 9 * Cottage Maid. White, bordered pink.....	20	1 50	12 00
B 9 * Couleur de Cardinal. Cardinal-red.....	40	3 50	30 00
B 8 * Couleur Ponceau. White, with rosy crimson border	15	1 25	9 00
B 7 * Crimson King.	20	1 50	13 00
B 9 Duchess de Parma. Red, with yellow border	20	1 40	11 00
B 7 * Gold Finch. Pure yellow, deliciously fragrant	25	2 00	
A 9 * Grootmeester van Maltha. Dark crimson, feathered white	30	2 75	
B 10 * Joost van Vondel. Deep glossy cherry-red and white; large-flowered	15	1 50	12 00
B 10 * Keizerkroon. Bright red, with broad yellow edge; extra-large flowers. Very fine for forcing or bedding	25	2 25	20 00
A 8 * King of the Yellows. Very deep golden yellow; extra fine	25	2 00	
B 8 * La Reine (Queen Victoria). Pure white, slightly tinted with pink. Useful for bed- ding or forcing	15	1 25	10 00
B 8 * L'Immaculee. Pure white; early	15	1 25	10 00
B 9 * Mon Tresor. Extra fine; pure yellow; large flower. One of the very best.	25	2 00	

EARLY SINGLE TULIPS, continued

A 9 ***Ophir d'Or** (Gold of Ophir). Golden yellow. New exhibition variety; fine. 20 cts. for 10, \$1.50 per 100.
 A 8 ***Pottebakker, White**. The best white for forcing. 20 cts. for 10, \$1.50 per 100.
 A 8 ***Pottebakker, Yellow**. 20 cts. for 10, \$1.75 per 100.
 A 8 ***Pottebakker, Scarlet**. Bright scarlet; very fine. 30 cts. for 10, \$2.25 per 100.
 B 9 ***Prince of Austria**. Bright orange-vermilion; large, sweet-scented flowers. 40 cts. for 10, \$3 per 100.
 B 10 ***Princess Wilhelmina**. Fine deep pink and white; extra-large flower. 30 cts. for 10, \$2.50 per 100.
 B 8 ***President Lincoln** (Queen of the Violets). Extra-fine bedder. 35 cts. for 10, \$3 per 100.
 A 7 ***Proserpine**. Glossy carmine-pink; fine form; very early. 45 cts. for 10, \$3.75 per 100.
 A 8 ***Rachel Ruisch**. White, shaded pink; fine forcer and bedder. 20 cts. for 10, \$1.50 per 100.
 A 9 ***Rembrandt**. Fine bright scarlet; very early. 30 cts. for 10, \$2.50 per 100.
 B 8 **Rosa Mundi**. Rose and white. 20c. for 10, \$1.50 per 100.

		SINGLE TULIPS		
		10	100	1,000
B	6 * Rose Griselin . Very fine rosy pink		\$0 20	\$1 75

Salmon King (Europe). Brilliant scar-			
let-salmon.			60 5 00
The Sultan. Black.			40 3 00

FIRST-SIZE SINGLE HYACINTHS

EXTRA-SELECTED

These fifty kinds are the cream of more than three hundred varieties grown. Being of the best forcing varieties and strictly first-size, they are usually sent out as Exhibition Sizes, Special Collections, etc. The Single Hyacinths have more meritorious habits than the Double. Guaranteed best quality; equal to any imported. In many varieties four bulbs will weigh a pound.

Not less than 4 of a kind at 10, and 25 at 100 rate

SINGLE HYACINTHS

SINGLE WHITE AND BLUSH

	10	100
Alba superbissima. Pure white; large spike.	\$1 10	\$9 00
Baroness van Thuyll. Very early; pure white; compact truss (the same merit as Baron van Thuyll, pink).	1 00	8 00
Grandeur a Merveille. Finest blush-white; large truss. There is no better of this color to grow in quantity.	85	7 00
La Grandesse. Extra fine; pure white; very large spike; finely formed bells.	1 50	12 00
L'Innocence. Pure white; very large truss.	1 40	11 00
Madam Vanderhoop. Pure white; very large bells. This is one of the best for potting or bedding.	1 10	9 00
Mont Blanc. Pure white; grand spike.	1 50	12 00

SINGLE PINK AND RED

	10	100
Baron van Thuyll. Fine pink; large, compact spike; early.	\$1 00	\$8 00
Charles Dickens. Delicate pink; decidedly one of the best; always gives satisfaction.	1 25	11 00
General Pelissier. One of the best; deep scarlet; early.	90	7 50
Gertrude. Fine red; very large, compact truss; excellent for bedding out, as it stands erect.	1 00	8 00
Gigantea. One of the best pinks; very large truss; fine for bedding out.	1 00	8 00

FIRST-SIZE SINGLE HYACINTHS, continued

SINGLE PINK AND RED, continued

BEDDING OR FORCING SECOND-SIZE NAMED HYACINTHS

These are of the best maturity and of good size, especially adapted for forcing or bedding. They are sure to produce large and vigorous spikes of bloom. Plant 6 to 9 inches apart and 6 inches deep.

This is equal to "First Size" of many dealers. HIGH-GRADE is shown by the fact that MY SALES FOR THIS SIZE HAVE INCREASED YEARLY FOR FORCING as well as for bedding.

SINGLE RED AND PINK

	10	100	
Charles Dickens.	\$0 75	\$6 00	
Gigantea.	60	5 00	
Lord Macaulay.	65	5 50	
Robert Steiger.	60	5 50	
Baron van Thuyll.	65	5 50	
General Pelissier.	60	5 00	
Gertrude.	60	5 00	
Moreno.	70	6 00	
Norma.	60	5 00	

SINGLE WHITE

Queen of the Blues.	75	6 00	
La Peyrouse.	60	5 00	

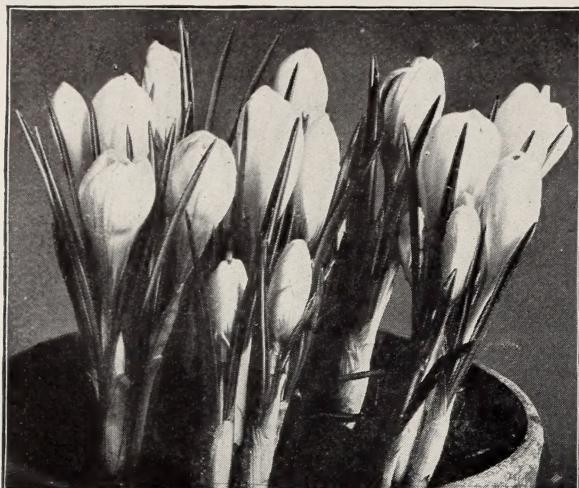

ROMAN HYACINTHS

FRENCH ROMAN HYACINTHS

A charming class of Hyacinths, producing graceful, delicately perfumed spikes of flowers; they force readily in the house. Each bulb produces several spikes. Their treatment is the same as that of other Hyacinths. The white variety is used by the million for early bloom. Potted in September, they will flower in December. The whole success of pot culture with these, as with Dutch Hyacinths, tulips, narcissi, etc., depends upon getting roots well established in the pot at a low temperature of 40 to 50 degrees, before bringing them into a temperature of the living-room to force the tops.

	10	100
White. 1st quality; 11 to 12 cm.	\$0 35	\$2 75
" Select; 12 to 15 cm.....	40	3 00
" Extra; 13 to 15 cm.....	50	4 00
" Fancy; 15 cm. and up ..	60	5 00
Single Yellow	60	5 00
" Blue	40	3 00
Light Rose	40	3 50
Dark Rose	40	3 00

CROCUS

SELECT NAMED CROCUSES

75 cts. per 100, \$6 per 1,000, except where noted

Mixed Crocuses are not, in my estimation, worth planting, hence I offer none, since a first-class named bulb will give three times as many flowers of larger size than those of a small-sized bulb generally sold in mixtures "The best is the cheapest."

BLUE

Albion. Large; dark purple; very early; extra.
Baron Bruno. Magnificent dark blue; large flower.
Non Plus Ultra. Blue, bordered white.

WHITE

King of the Whites. New; choice.
Mont Blanc. White; very fine.
Queen Victoria. Extra.

White, Yellow, Purple, Blue and Striped, equal number of each color, selected bulbs, XXX size of sorts named above at \$6 per 1,000, \$55 per 10,000

YELLOW

Mammoth Bulbs. 85 cts. per 100, \$7 per 1,000

STRIPED AND VARIEGATED

Albion. Striped; extra.
Mme. Mina. Extra large; splendid; the earliest.
Sir Walter Scott. White and violet-striped; very fine.

NARCISSI (Daffodils)

No spring flower is more charming and none more easily grown than the Daffodil. They are all grand forcers, and out-of-doors they improve from year to year if let alone. Naturalized in the grass or open woods, they make a fine distant effect. They have proven successful in every position. The leaves ripen and disappear before mowing-time. "Ten years ago," says an English writer, "I planted many thousands of Narcissi in the grass, and they have thriven admirably, bloomed well and regularly, the flowers are large and handsome, and, in most cases, have not deteriorated in size." ALL LARGEST SIZE BULBS.

SINGLE TRUMPET DAFFODILS

10 100

Bicolor Grandis. A little later than the other Bicolor varieties	\$0 25	\$2 00
Bicolor Empress. Very fine; large yellow, with pure white perianth	40	2 50
Bicolor Victoria. Very large early flower; best of Bicolor varieties.....	50	3 50
Emperor. Extra-large, golden yellow trumpet, with rich primrose perianth	40	3 00
Golden Spur. Large deep yellow; one of the best in cultivation	40	2 50

TRUMPET NARCISSUS

SINGLE TRUMPET DAFFODILS, continued

		10	100
Henry Irving.	Golden yellow trumpet, with large, wheel-shaped perianth	\$0 40	\$2 50
Trumpet Maximus.	Golden yellow	40	3 00
Trumpet Major.	Golden yellow trumpet and perianth; fine for forcing early	20	1 50
Mrs. Langtry.	Pure white; a gem for cutting	25	1 50
Principes.	Primrose perianth, deep yellow trumpet; early forcer	15	1 25
Sir Watkins.	Fine for forcing and cutting	40	3 00

DOUBLE DAFFODILS

Alba plena odorata. Double Poet's, or Gardenia-flowered Daffodil. In sweetness and purity it rivals Gardenia blossoms. White. 15 cts. for 10, \$1 per 100, \$9 per 1,000.

Orange Phoenix. White, with orange center; extra-fine flower. 25 cts. for 10, \$1.75 per 100.

Sulphur Phoenix. Pure white and sulphur; delicious odor; very fine. 40c. for 10, \$3 per 100.

Van Sion. Large, double-nose bulbs, each of which will give two or more flowers. 30 cts. for 10, \$2.50 per 100, \$24 per 1,000.

Van Sion. Extra-large, XXX, double-nose mother bulbs, which will produce from three to five flowers. 40 cts. for 10, \$3.50 per 100, \$28 per 1,000.

Van Sion. Single nose; fancy; selected. 25 cts. for 10, \$1.55 per 100, \$12 per 1,000.

The Van Sion I offer are unexcelled mammoth bulbs

VAN SION DAFFODILS

SWEET-SCENTED SMALL-FLOWERED SINGLE NARCISSI

Jonquilla simplex. Sweet-scented Jonquil. Yellow. 20 cts. for 10, 90 cts. per 100.

Jonquilla Stella. White, with yellow cup. 15 cts. for 10, 90 cts. per 100.

Jonquilla Campernelle. 15 cts. for 10, \$1 per 100, \$7 per 1,000.

Jonquilla rugulosus. 20 cts. for 10, \$1.25 per 100, \$10 per 1,000.

Poeticus (Pheasant's Eye). Pure white, red crown; very sweet; cannot be forced. 10 cts. for 10, 60 cts. per 100, \$4.50 per 1,000.

Poeticus ornatus. Pure white, sweet-scented, cup tinged rosy scarlet; very fine for forcing; much earlier than the old variety. 15 cts. for 10, \$1.10 per 100, \$8 per 1,000.

SPECIAL LOW OFFER IN MIXTURES

50 Trumpet Narcissi, in 10 sorts, on page 6, \$1.50.

100 Trumpet Narcissi, in 10 sorts, on page 6, \$2.50.

100 Double Daffodils and Jonquils, many sorts, \$1; \$7.50 per 1,000.

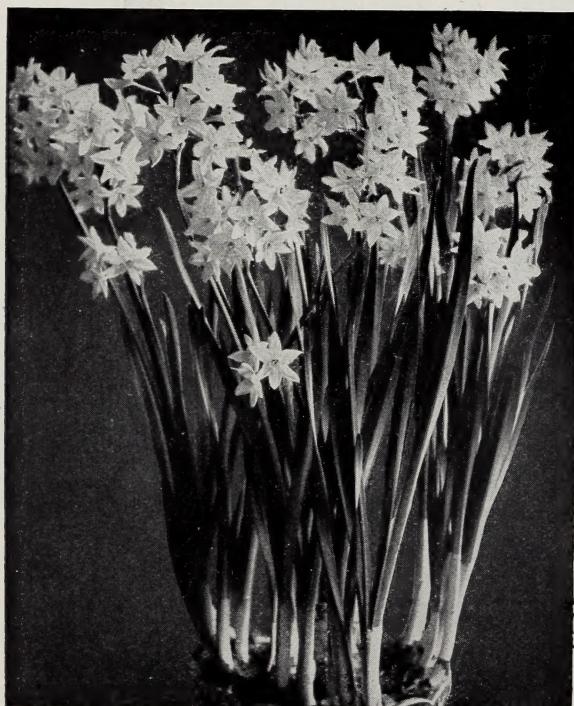

100 Single Daffodils and Jonquils, many sorts, \$1; \$8 per 1,000.

GIANT PAPER WHITE NARCISSUS.

Easily grown in earth or water, and better than the Chinese Sacred Lily; deliciously scented. Their tall spikes of bloom, with many florets to each spike, may be had by Christmas if planted the last of September. Mammoth bulbs, 30 cts. per doz., \$2 per 100, \$15 per 1,000. 1,000 bulbs in case.

PAPER WHITE, GRANDIFLORA. Fancy. About 1,250 bulbs in case. \$1.40 per 100, \$12 per case.

CHINESE SACRED LILY. This fairy flower of the Chinese may be easily grown in an open dish half filled with pebbles and water. Their highly perfumed flowers appear in about two months from time of planting. Mammoth bulbs, 10 cts. each, \$1 per doz.; original basket containing 30 bulbs, \$1.75; per mat of 120, \$6.50.

PAPER WHITE NARCISSI

GARDEN LILIES

Candidum (Madonna, or St. Joseph's Lily). THICK-PETALED variety. Coming into bloom with the roses and blue larkspur, what a pageant they form! This Lily is easy of culture, quick to increase, and thrives in almost any soil and position. Like other Lilies, they should not be disturbed. Plant in early September for best results. Choice bulbs, \$1 per doz., \$7 per 100; mammoth size, \$1.25 per doz., \$8 per 100.

Japanese Lilies may be planted in spring or fall with excellent results. They are especially appropriate for garden or border of old-fashioned flowers, including the Tiger Lily. The following varieties are choice and easy of culture:

Auratum. 8 to 9 inches, \$1 per doz.; 9 to 11 inches, \$1.50 per doz.

Speciosum album. 8 to 9 inches, \$1.50 per doz.; 9 to 11 inches, \$2.50 per doz.

Speciosum rubrum. 8 to 9 inches, \$1.25 per doz.; 9 to 11 inches, \$2 per doz.

Speciosum Melpomene. 8 to 9 inches, \$1.20 per doz.; 9 to 11 inches, \$2 per doz.

Tigrinum splendens. Choice bulbs, \$1 per doz., \$7 per 100.

Twenty bulbs of each of these five sorts, largest size, 100 in all, \$12; next size, \$9

THE TESTIMONY OF A SATISFIED CUSTOMER

MR. S. G. HARRIS, Tarrytown, N. Y.

Dear Sir:—It is a pleasure, I can assure you, to state that all of the bulbs, peonies and roses which I have purchased from you from time to time have proven most satisfactory. I know that the bulbs which you have furnished me have been, beyond any question, the finest of their kind I have ever seen. Raising a great many of these and being very fond of flowers, I feel as if I had a right to say they certainly have no superior on the market anywhere. It has been a pleasure for me from time to time to tell my friends of my most satisfactory dealings with you, and I assure you it has always been gratifying for me to be able to turn a great many people in your direction.

Wishing you the success which I feel you deserve, I remain,

October 6, 1906.

Yours very truly,

ASTILDE JAPONICA GLADSTONE

LILY-OF-THE-VALLEY

(Ready in November)

I cannot too highly recommend my Lily-of-the-Valley. If more of my customers were aware of the abundant bloom the clumps give (with no care except to set them out) I am sure sales would be greatly increased.

XXX Grade. Berlin Pips. For Christmas forcing. \$2 per 100, \$16 per 1,000.

XXX Grade. Berlin Pips. A high grade for late

forcing. \$2 per 100, \$14 per 1,000.

Strong clumps for outdoor planting, containing 12 to 15 crowns, \$3 per doz., \$20 per 100.

Superior Roses for Discriminating Buyers

We have arranged to supply to our customers heavy two-year-old plants that will produce grand plants the first season. We import thousands of Roses yearly from Dickson & Sons, the famous growers in Ireland. Our stock includes only first-class varieties and first-class plants.

Buyers Please Bear in Mind.

ROSE-GROWING CAN PRODUCE. To produce such stock, strong one-year plants are set in spring and grown two years in the field; quite different from plants started in the greenhouse in winter, planted out in spring and sold the following spring for two-year-old plants. The fact that we send these IRISH ROSES to nearly all the large estates AT LENOX AND NEWPORT, where the gardeners are known to be as well up in their profession as any in the country, is proof positive of the quality of our stock.

"The Proof of the Pudding."

Three years since a customer asked us to send him 150 Roses, our selection. He has since ordered over 300, and two of his nearest neighbors have ordered over 500. This kind of advertising pays well, since its only cost is select stock, well packed and shipped at the proper time, together with cultural directions when desired, which is no more than every customer has a right to expect.

By permission, we submit the following letter from one of America's greatest sculptors

NEW YORK, November 13, 1905.

S. G. HARRIS, Esq., Tarrytown, N. Y.

Dear Sir: The Roses which you sent me last spring gave such beautiful flowers from June until late in the fall that I wish to have you duplicate the order, if you can do so, next spring. Yours very truly,

DANIEL CHESTER FRENCH.

Our new Catalogue describes nearly 200 of the best Roses. Ask for it before buying

NEW ROSES

Mrs. David Jardine. (H. T.) A glorious and most charming Rose, and one that is of immense importance to this section. It possesses vigorous and erect growth, together with marvelously free-flowering habit. The blooms, which are produced on every shoot, are of very large size and perfect form, beautiful in its several stages of development. The color is a delightful shade of bright rosy pink, shading in the outer petals to salmon-pink; quite distinct from any existing variety. In this Rose we have produced a flower possessing all the chasteness and floriferousness of a Tea, combined with the erect and vigorous growth of a Hybrid Perpetual. It will eventually supersede the Catherine Mermet type. It has been inspected growing and flowering by the Committee of the New York Florists' Club, who gave their Diploma of Superiority, awarding it the HIGHEST NUMBER OF POINTS EVER GIVEN TO A NEW ROSE SINCE THE FORMATION OF THE SOCIETY. Price, \$2.

Harry Kirk. (Tea). Absolutely unique. A splendid Rose, of most robust growth, with free-branching habit, flowering freely and continuously. The blooms are large, full, with large, smooth petals of great substance; the form is perfect; the buds are long and elegant; color deep sulphur-yellow, passing to a lighter shade at edges of petals. A splendid Rose, much the best of its color. A marvelous acquisition. Awarded Gold Medal, N. R. S. Doctor Huey, of Philadelphia, writes: "HARRY KIRK is a great and glorious Rose. I had five different periods of bloom last summer. I had several blooms that opened 4½ inches in diameter. As the inner row of petals is incurved, even when fully opened, it does not present a flat appearance. Petals are of great substance and the flower is quite fragrant." Price, \$1.50 each.

The plants are grown by Rose-growers of over fifty years' experience in the north of Ireland, where soil and climate conspire to produce plants of great vigor, strong roots and well-ripened wood.

THE PLANTS ARE VERY LOW-BUDDED, so that in planting the bud or graft is easily placed 2 or 3 inches below the surface of the ground (as it should be) without the necessity of too deep planting of the roots.

THE PLANTS ARE KEPT PERFECTLY DORMANT from the time they are dug until they reach our customers. On arrival late in November, we place them in deep trenches and cover with earth until shipping time. By this method there is no drying of the roots, as there is where stored in buildings.

Our method of packing insures arrival in perfect condition.

SPECIAL OFFER OF NEW ROSES. Our enthusiasm for the following grand new varieties has induced us to prepare a large stock in order that every customer may have some of them. All extra-heavy, two-year-old plants.

Alice Grahame. Ivory-white, tinted salmon.

Antoine Rivoire. Rose-flesh; superb.

Baby Rambler. Best scarlet bedder.

Bessie Brown. One of the finest Roses ever raised.

Etoile de France. Velvety crimson.

Frau Karl Druschki. Best white Hybrid Perpetual.

These prices are not for home-grown or Holland stock. IRISH ROSES are as much superior to ordinary stock as

SUPERIOR SOIL AND CLIMATE AND 50 YEARS' TRAINING IN

ROSE-GROWING CAN PRODUCE. To produce such stock, strong one-year plants are set in spring and grown two years in the field; quite different from plants started in the greenhouse in winter, planted out in spring and sold the following spring for two-year-old plants. The fact that we send these IRISH ROSES to nearly all the large estates AT LENOX AND NEWPORT, where the gardeners are known to be as well up in their profession as any in the country, is proof positive of the quality of our stock.

MRS. DAVID JARDINE

Gruss an Teplitz. Best crimson bedder.

Killarney. Best light pink

Madame Abel Chatenay. Best rosy carmine.

Madame Ravary. Best orange-yellow.

Mildred Grant. White, tinted pink. The grandest variety ever raised.

ROSES, continued

In addition to the Roses named below, we offer over one hundred and fifty choice varieties including Frau Karl Druschki, Mrs. Crawford, Ulrich Brunner, Ben Cant, Baron Rothschild, etc. Two-year selected plants, 35 cts. each, \$3.50 per doz., \$25 per 100. Write for General Catalogue.

In addition to our regular two-year-old stock, we offer transplanted three-year-old plants of many of the Climbing Roses, Rugosas, and miscellaneous sorts, of which the price is 50 cts. each, \$5 per doz.

Roses at 40 cts. each, \$4 per doz., \$30 per 100

Antoine Rivoire	Corallina	Gustave Nabonnand	Madame Cadeau Ramey
Ards Pillar	Countess of Gosford	K. A. Victoria	Madame Ravary
Baldwin	Climbing K. A. Victoria	Killarney	Maman Cochet
Beryl	Climbing Belle Siebrect	Lady Battersea	Mildred Grant
Bessie Brown	Enchantress	Liberty	Mrs. Robert Garrett
Blanc Double de Coubert	Ferdinand Batel	Madame Joseph Combet	Mrs. Theo. Roosevelt
Carmine Pillar	Franz Deegan	Madame Pernet Ducher	White Maman Cochet
Caroline Testout	Frau Peter Lambert		

Roses at 50 cts. each, \$5 per doz., \$35 per 100

Alice Grahame	Cherry-Ripe	Evangeline (Climber)	Rosa Spinossissima
Climbing Frau Karl Druschki	Dean Hole	Hugh Dickson	Souv. de Pierre Notting
	Etoile de France	Richmond	

Twenty-four Choice Ever-blooming Roses—Hybrid Teas

We are pleased to offer the following thoroughly tested varieties of Roses, which bloom from June to November. Many of them are well-known favorites. The newer varieties have proved most satisfactory in many parts of the country during the past two or three years.

Alice Grahame	Caroline Testout	Gruß an Teplitz	La France	Madame Ravary
Antoine Rivoire	Franz Deegan	Helen Gould (Baldwin)	Liberty	Mrs. Robert Garrett
Ards Pillar	Frau Peter Lambert	Kaiserin Augusta Victoria	Mme. Abel Chatenay	Souv. du Pres. Carnot
Bessie Brown	Gladys Harkness	Killarney	Mildred Grant	Viscountess Folkestone
Captain Christy	Grace Darling	Lady Battersea	Malmaison (Bourbon)	

The Best Twelve Hardy Garden Roses

The following varieties, all things considered, are fully equal to any twelve of their class (H.P.). Some rosarians would doubtless prefer other varieties for some of them. We have placed the names of a few in parentheses, which may be substituted if the purchaser prefers. For description of these Roses and others, including Sweetbriars, Rugosas, Climbers, etc., see our General Catalogue.

Baroness Rothschild (Luizet)	Francois Michelon (Rodocanachi)	Marshall P. Wilder (Tom Wood)
Clio (Prince Camille de Rohan)	Frau Karl Druschki (St. Amande)	Mrs. R. G. S. Crawford (Paul Neyron)
Earl of Dufferin (Louis Van Houtte)	Helen Keller (Jacqueminot)	Mrs. John Laing (Queen of Queens)
Margaret Dickson (Magna Charta)	Fisher Holmes (Jean Liabaud)	Ulrich Brunner (Soleil d'Or)

STANDARD ROSES

We offer a grand collection of Rose Trees on both Rugosa and Canina stock in the best varieties of Hybrid Teas and Hybrid Perpetuals. XX size, 3 to 5 plants, \$1.25 each; 6 or more plants, \$1 each. X size, 3 to 5 plants, \$1 each; 6 or more, 75 cts. each.

We also have a splendid stock of Standard Crimson Rambler, Baby Rambler and Dorothy Perkins on Rugosa stock at the following prices, namely: **Crimson Rambler**, 2-yr., 75 cts.; 3-yr., \$2; 4-yr., \$3. **Dorothy Perkins**, 2-yr., \$1.50; 3-yr., \$2.50. **Baby Rambler**, 2-yr., \$1; 3-yr., \$1.50.

In addition to the varieties mentioned in our General Catalogue, we offer about fifty of the best varieties.

ALPINE AND ROCK GARDEN

Those having our General Catalogue will note the many varieties of plants suitable for planting in rock-gardens. Not every estate has a suitable place for such a garden, but many places with very little care and expense could be made to suit the growth of these flowers to perfection, reproducing the pleasing effects often found by travelers in the Swiss mountains. Between now and planting time in September, we shall be pleased to assist those who wish to lay out gardens of this kind.

GRASS SEED

Tarrytown Lawn Grass Seed. 25 cts. per lb., 50 lbs. or more at 20 cts. per lb.
Special Mixture of Lawn-Restoring Seed. \$1.25 per pk., \$5 per bus. of 24 lbs.

Shady Lawn Mixture. \$1.75 per pk., \$6 per bus.

Special Grasses for dry ground, wet ground, sterile soil, etc. \$4 to \$5.50 per bus.

FERTILIZERS

Canada Hard-Wood Ashes. \$2.50 for 200 lbs., \$18 per ton. Car-lots prices on application.

Pulverized Sheep Manure. "Wizard Brand." \$2 for 100 lbs., \$30 per ton.

Ground Bone. Coarse, for shrubs and trees, \$4 for 200 lbs., \$35 per ton; medium, for grass, \$3.50 for 200 lbs.,

\$30 per ton; bone flour, for pots and beds, \$4.50 for 200 lbs., \$40 per ton.

HARDY PERENNIALS

DELPHINIUMS

We would call attention to our large stock and great variety of Delphiniums (Larkspur). Our enthusiasm for the Erskine Park Hybrids has led us to prepare an immense stock. We offer prices on page 16.

IRIS

Among all hardy perennials there is no family which has a greater variety of choice flowers more easily grown than the different groups of Iris. Our General Catalogue gives a long list of those which have been well tested and proven to be the best grown.

Spanish Iris (Xiphoides)

These choice early Irises give more flowers for the money than any other Iris. By covering the bed with glass in the beginning of April, the flowers may be cut in May. Without glass, they bloom in early June.

Baron von Humboldt.	Fine blue.....	\$0 50
Belle Chinoise.	Very fine yellow	75
British Queen.	Pure white; extra.....	75
Chrysolora.	One of the best pure yellows.....	50
Count of Nassau.	Best dark blue; sweet-scented	90
Emperor of the West.	Bronze; large flower...	75
La Tendresse.	Cream-white.....	65
Louise.	Lilac-blue; very large; extra fine	75
Leander.	Deep yellow; very large flower; scented	90
Superfine Mixed.	From above sorts	65

English Iris (Anglica)

These beautiful flowers are second only to the Japanese in beauty, and some think they are even more graceful, not being so heavy. The markings are exquisite. They come in bloom after the German Iris and before the Japanese. WE OFFER TEN GRAND SORTS AT 50 CTS. PER DOZ., \$2.50 PER 100, AND MONT BLANC, THE FINEST WHITE, AT 50 CTS. PER DOZ., \$2.50 PER 100; VERY FINE MIXED, \$1.50 PER 100.

Those Interested in German or Japanese Iris should send for list of choicest imported varieties

PHLOX

The author of "A Woman's Hardy Garden" says: "There is no flower more beautiful, more easily cultivated, or giving so much bloom as the Phlox. I certainly could never have a garden without it." Plant in September and early October for best results. Plant also in April."

Following the Iris and Peonies in time of bloom, but in no way behind them in popularity, are the Hardy Perennial Phloxes. We have finally succeeded in getting up a good stock of some of the varieties which are always short at planting time. We have weeded out all the magentas and purples and believe that our list is as select as that offered by any firm. The season having been favorable, our stock will be especially fine for September and October planting. Blooming size, 15 cts. each, \$1.25 per doz., \$8 per 100. Large clumps, XX, 20 cts. each, \$2 per doz., \$12 per 100. See choice varieties in our General Catalogue.

Amazon. Large flower; pure white. Fine.

Belvidere. Salmon-pink. A choice sort.

Bridesmaid. White, with large crimson center.

Beranger. White, suffused with pink; rosy lilac eye.

Caran d'Ache. Bright carmine-rose; distinct.

Coquelicot. Fine, rich scarlet, with deep carmine eye.

PERENNIAL PHLOX

Cross of Honor. Each petal lilac-color, with a white margin; beautiful.

Flambeau. Large flower; bright orange-red, dark center; fine.

Henry Murger. White, with carmine eye. The best of its color.

La Vague. Large; rosy pink, with red eye; choice.

Lothair. Large; rosy salmon, with crimson eye.

Matador. Large flower; bright orange-red. Distinct and fine.

Professor Schlieman. Salmon-rose, with carmine eye.

Pantheon. Deep salmon-rose; very fine.

Peachblow. Delicate pink, with white markings.

Pearl. Pure white.

Purity. Snow-white.

Queen. Pure white.

Pecheur d'Islande. Soft salmon-scarlet, with a white center.

R. P. Struthers. Bright rosy red; crimson eye.

Sunshine. Deep salmon-pink; dark eye.

William Robinson. Flowers very large; pale salmon, with rose center. Fine.

Miss Lingard. We offer a fine stock of this new, ever-blooming variety. This Phlox blooms in May, fully six weeks earlier than the other sorts, and continues in bloom three months; a grand white variety, which should be in every collection; is not so tall a grower as Queen. Although the demand for this variety excels that of all other whites, we have put the price very low. Height 2 to 3 feet.

Phlox subulata (Moss Pink). Rose-pink.
subulata alba. White.

Prices of all Perennials not priced on page 16, as follows: 15 cts. each, \$1.50 per doz.

MODESTE, GUERIN PEONY

distinct and beautiful color, size, vigor or other good qualities. It was the concensus of opinion at the American Peony Society held at Cornell University in June last that 100 to 150 varieties would cover all that would be worth growing, including early, medium and late varieties of the different colors from white, yellow, pink, rose, scarlet and purple. We believe we have a list which will need but little revision, simply a few more additions of the sorts recently introduced.

Preparation of the Soil

To perfect so many large blooms as a good clump of Peonies will set, the soil should be well prepared so that plenty of nourishment as well as moisture may be had at blooming time. No fertilizer is better than well-rotted cow manure, which should be used in liberal quantities, but placed far enough below the roots so that the rootlets will not be affected by it until they have well started to grow. If the subsoil is of a good loamy texture, the excavation of 2 feet with a layer of 6 inches of well-rotted cow manure at the bottom, well spaded in, will be sufficient. If, however, the subsoil is of the nature of hardpan, it should be removed entirely and alternate layers of old sods and manure put in its place. Heavy clay should be lightened by the aid of sand, leaf mold and manure, mixing it thoroughly by overturning several times. Plants should be set at least 3 feet apart so that they will have ample room for development.

A good way to utilize the ground the first season or two is to plant a row of phlox between the rows of Peonies. Should there be an extreme drought in April or May, a thorough drenching of the beds once or twice a week would well repay in extra bloom. As phlox are fond of the same treatment, these plants thrive well together, the latter giving a succession of bloom for two months after the Peonies are over.

A Word About Prices

We have endeavored to make our prices so attractive as to bring many orders for our large stock. This does not mean, however, that we shall be overcome by the temptation to cut the roots into such small fragments that they will not bloom the first season. **Every one of our plants will bloom next June and July if planted in early autumn.** Grown on ground especially adapted to Peonies, and in a very favorable season, our plants have developed strong roots and plump eyes. We offer three sizes, viz.:

1st size, 3 to 5 eyes; XX size, 6 to 8 eyes;
XXX size, 9 to 12 eyes

PEONIES

No flower exceeds the Peonies in popularity, and none is more easily grown. They are not attacked by insects or disease, and are perfectly hardy, requiring no covering in the severest weather. They thrive in all kinds of soil and flourish in a rich, deep loam. They demand much moisture at blooming time, and if grown in partial shade the blooms will, therefore, last longer and be equally fine in other respects. Plant eyes 2 inches below the surface and pack the earth firmly about the roots.

Although they may be planted in spring or late fall, best results are obtained if planted in September, as the plant becomes sufficiently established to mature the bloom the following June.

A Word About Varieties

Our stock was originally purchased of four of the most reputable growers known to the trade, and by careful handling in planting, digging and shipping our customers may rely on varieties true to name.

The best customer on our books was secured years ago by an order for \$10 worth of Peonies, our selection.

We have discarded many varieties which we consider unworthy of cultivation, retaining other varieties much better of practically the same color. There have been originated nearly 3,000 varieties of Peonies, many of which have long since been discarded by most of the growers as unworthy of cultivation. There are still many varieties offered in some localities which within two or three years will be a thing of the past. Such beautiful varieties have been brought out during the past few years, since the revival of the herbaceous plants, that it seems useless to continue a large list of old varieties not half as good, either from lack of

variety or from the fact that they are not as good as the new ones.

PEONY ROOT

ONE HUNDRED SUPERB PEONIES

The quality may be seen from the fact that we supply many of the most noted places. We can guarantee ours true to name. There is no department of floriculture in which the customer is so much at the mercy of the careless or unscrupulous dealers as in Peonies. One dealer cuts the roots so small that the blooms amount to little before the third year; and another (himself honest, perhaps) has imported from one of those growers who labels one plant correctly, and the balance of the 100, more or less, of the same variety, may be almost any color. Plant in autumn, and one year from date your plants will be worth double their cost.

SINGLE JAPANESE

They measure 6 to 7 inches across. Twelve varieties of the very finest in cultivation, including all the delicate shades from pure white to purple. 50 cts. each, \$5 per doz.

ONE OF OUR FIELDS OF PEONIES

DOUBLE CHINESE

Hardy as an oak, thriving in any rich soil and with the least possible care. The choice double varieties named below should be in every garden. Heavy clumps which will bloom the first season.

	Each	Doz.	Each	Doz.

HARDY PERENNIALS

A Word About Prices. We offer hundreds of the best varieties of Hardy Perennials, including Lilies, etc., at 15 cts. each, \$1.50 per doz. Only the few varieties named below differing from this price.

We have greatly increased our facilities for supplying the old-fashioned flowers, including improved new hybrids and many varieties especially adapted to the Alpine and rock-garden.

Prices of all hardy perennials listed in our catalogue, not named on this page, will be furnished at 15 cts. each, \$1.50 per doz.

Six at dozen rates, fifty at hundred rates, provided not less than three of a kind are ordered. No charge for boxing and packing orders amounting to \$5 or more.

EVERGREENS

All our Evergreens have been transplanted several times, so that they have developed ample fibrous roots to transfer in safety from our grounds to yours. We take great care, also, to burlap the roots in a large ball of earth. Among many species we offer are some of the cheaper sorts for screens and hedges; also, choice specimens of the more rare and beautiful **Colorado Blue Spruce**, **Oriental Spruce**, **Nordmann's Fir**, **White Pine**, **Mugho Pine**, **Swiss Stone Pine**, **Japanese Umbrella Pine**, **Arborvitae**, **Hemlock**, **et inosporas**, **Junipers**, etc.

We invite correspondence with those desiring to plant Evergreens, and offer information as to proper time and method of handling the different species. **Special estimates for large numbers.** See General Catalogue.

PLANTING PLANS AND OUR SUPERIOR STOCK

requires proper care and cultivation, but equally depends upon intelligent selection of varieties and harmonious design in planting. Neglect of any of these points will give a garden lacking in some element of beauty. We make a specialty of **Designs for Suburban Grounds** and have furnished plans for many of the most beautiful places near New York City. Planting designs we supply to distant customers uniformly give complete satisfaction,—they are practical and easy of application.

We not only furnish first-class material at the proper season for the best results, but we are

prepared to renovate old estates, make planung plans for new ones, and in many other ways assist our patrons to the highest development of their grounds. To those in the vicinity of New York we make a preliminary visit without charge. Those at a distance should send us a sketch of their grounds with dimensions, points of the compass, location of buildings, trees, etc.

From these data we make a planting plan, drawn to scale, at a moderate cost. By so doing, our clients would save expense and disappointment, because, without expert advice, planters are apt to select material for planting which is either not hardy or will not thrive in a given location. Moreover, those not familiar with the ultimate sizes of trees, shrubs, etc., are apt to use two or three times the number required for the best effect. Many buyers find our superb catalogue sufficient to help them in selecting material, for we have spared no pains to make it as helpful as possible, and are supplementing it by correspondence, answering inquiries and suggesting proper selections.

To those contemplating a large planting, we wish to call attention to the fact that we have filled some of the largest orders known among nurserymen. In the last four years we have supplied one large estate in this vicinity with over 26,000 trees, besides shrubs, bulbs, etc. The fact that this number of trees has been largely evergreens, which are more difficult to transplant than deciduous trees, is pretty good proof that our stock bears transplanting well.

From one of the most noted rosarians in the country we have received an order for as many as \$1,200 worth of rose plants at one time. We take especial pride in the fact that we delivered this spring, to the entire satisfaction of our customer, nearly \$2,000 worth of stock from all departments. Although there are well-known nurseries much nearer home, the order came to us because of the way we handled a previous order of nearly \$4,000.

S. G. HARRIS, M.S., Tarrytown, N. Y.
